

## TRAIL ETIQUETTE AND SAFETY

- common sense, courtesy
- keep kickers at the back of your group
- let others know when passing and what side you will pass on
- riders should not pass at a different speed than the gait others are traveling at- let them know you are coming
- hikers, bikers, and vehicles should yield to you but might not- be prepared
  - ride at least a horse length apart
  - wear orange/wear a helmet

### About the markers.....

Remember, the markers you follow are always on your RIGHT.

A double marker means a turn is coming up.

Ride is rain or shine!

Hope to see a sunny day and a great turnout of riders!
